This template shows how to prepare a one-page abstract in the ISFV21. It illustrates the abstract layout, and describes points you should notice before you submit your abstract. The papers will be in A4 size with margins top 30 mm, left and right 20 mm, bottom 25 mm. The text should be Times or Times Roman with font size 12 point. Footer contains the symposium references “ISFV21 – Tokyo / Japan – 2025”, left justified. The abstract must be submitted in “PDF” format via the ISFV21 website. Only corresponding authors will be able to connect to the submission tool with login and corresponding password. The pdf file size of the paper should not exceed 4 MB. When creating your pdf file please select “include all embedded fonts.”

Care should be taken over the preparation of diagrams and figures which may incorporate color where it adds to the presentation. Annotations should be in 10 point with the first letter only capitalized. The figure caption should be preceded by “Fig.” followed by the figure number. For example, “Fig. 1 Granular impact cratering.....” Authors should recognize the possibility for full color publishing of photographs and illustrations. Image files should be optimized to minimize size without compromising the quality. The figures should have a resolution of 300 dpi.

Papers are accepted on the basis that they may be edited for style and language. The author himself is responsible for the correctness of the scientific content. Abbreviations should be spelt out in full the first time they appear and their abbreviated form included in brackets immediately after. Words used in a special context should appear between single quotation marks the first time they appear.

The papers in the reference list must be cited in the text. In the text the citation should appear in square brackets as [1]. In the Reference list the font should be Times or Times New Roman with 10 point size as follows:
